Hospitality Solution: Enhance Guest Experience, Improve Staff Productivity

Epygi's hotel solution proudly enters the hospitality industry's battlefield armed with its award winning QX products and numerous useful features. Epygi's solution is designed for small and mid-sized hotels and consists of:

- ◎ QX IP PBX(s) as the main platform
- ◎ Epygi Hotel Console (EHC), user-friendly web-based application
- ◎ QX Gateway(s) which would tie the hotel's analog phones to VoIP
- ◎ Support for easy integration with Property Management System (PMS)
- ◎ Hotel Phones, IP or analog, interoperable with Epygi QXs

More hotels and those in the hospitality industry are opting to adopt the newly offered VoIP communication solutions which can not only expedite the day-to-day hotel operations but also would ensure high-quality guest experience.

With the range of reliable services offered and its flexibility to be tailored to hotels of varying sizes, Epygi's hospitality solution:

- ◎ Automates Some of the Hotel Business Processes
- ◎ Increases Staff Reachability and Responsiveness
- ◎ Offers Guest Extension Activation/Deactivation and Billing
- ◎ Allows Wake–Up Alarm Scheduling and Do Not Disturb (DND) Activation
- ◎ Provides High Efficiency of Communications System
- ◎ Helps to Increase Revenue

Every industry is affected by the ever-changing technological advances and the hospitality and hotel industry is no exception. In order to succeed and to be competitive in the hospitality business there is a need to stay on the leading edge of communications technology to be able to offer top quality customer service. With Epygi's more than 18 years of experience in the telecommunication industry let us help you to succeed and to be always a step ahead of your competitors.
