

QX20

The QX20 IP PBX is designed for small-to-midsized businesses with up to 32 users. It supports up to 32 IP devices and 10 concurrent calls. SIP trunking allows the QX20 to connect directly to an ITSP with no additional equipment. The QX20 includes a firewall and SIP Intrusion Detection & Protection System for optimal security. E1, T1, FXO and FXS ports can easily be provided using the Epygi QX Gateways.
